FILING FEE

Plaintiff shall pay the filing fee for this Civil action pleading with Honorable George A. Toole, Jr., United States District Judge, my credit card information separate in a sealed envelope.

STATEMENT OF GOOD CAUSE

1. President Bush lacks official immunity to overrule Salem Superior Court judgement by Essex Superior Justice Lowy, David and thus fraudulently empower Mary Wardwick with Selectmanship of the Town of Manchester-by-the-Sea, Massachusetts, since her re-election in 2002 up to the present. Plaintiff does not acknowledge her governmental authority on public grounds that Mary Wardwick should have been restrained upon my filing charges years ago and by now have been put to death.
2. President Bush lacks official immunity to command torture and cruelty against Plaintiff through the MALPRACTICE of a fraudulent empowering Malcolm D. Toriega, which would reflect a five-star honorability in any normal circumstance, upon Plaintiff's filing homicide and horror abuse charges against Malcolm Toriega punishable with capital penalty. Plaintiff refers here to her original complaints and affidavits.  
In summary,  
Plaintiff has been restrained near for unlimited time without prejudice.

Isaacson Domiego has been illegally appointed sole custodian of my two daughters, Dominique Lucía (04.18.95) and Christiane Gabriela (07.29.97).

This commandment of torture and cruelty by U.S. Executive Tower against Plaintiff has caused physical and emotional pains upon Plaintiff and her daughters given the perfect Love bonding that exists in them.

3. President Bush lacks official immunity to contact FRANCE and warn French authorities through an illegal Restraining Order on FALSE and DELUSIONAL grounds concerning criminal records, which I don't have, and portable weapons (?).

President Bush lacks official immunity to downgrade Plaintiff in a foreign country, while so many other Americans were pursuing same collegiate GOALS as Plaintiff without any of them being restrained.

NORMA BARROSO represented the United States of America with honors. Plaintiff demonstrated a privileged capacity to write and speak French with native fluency in a relatively short period of time.

This fact was true despite her deteriorating health for lack of food and extraordinary stress levels for not knowing how she was going to pay for lodge.

SALEM, Massachusetts, on April 19<sup>th</sup>, 2004.
